

INTRODUCING: BREAKTHROUGH 'QUANTUM' HOLOGRAPHIC NANOFOIL CATALYZER TECHNOLOGY

The new **5GBioShield** is the result of the most advanced technology currently available for balancing and prevention of the devastating effects caused by non-natural magneto-electric waves, particularly (but not limited to) 5G, for all biological life forms.

The **5GbioShield** makes it possible, thanks to a uniquely applied process of quantum nano-layer technology, to balance the imbalanced electric oscillations arising from all magneto-electric fog induced by all devices such as: laptops, cordless phones, wlan, tablets, etc.

The **5GbioShield** brings balance into the field at the atomic and cellular level restoring balanced effects to all harmful (ionized and non-ionized) radiation.

FIELDS OF APPLICATION

- a. Balancing & revitalization of magneto-electric fields from unnatural sources, such as laptops, cordless telephones, wlan, tablets, etc.
- b. Balancing of geo-biological disturbances in the habitat and surroundings (Hartmann, Curry, Palm, Peyré, Wissmann), including underground water sources).
- c. Full-spectrum balancing of biological organisms, such as animal, plant and/or human, catalysing faster and easier recovery.
- d. Full-spectrum harmonization of homes, offices, schools, hospitals, vehicles, trains and aircrafts, etc...
- e. Psycho-emotional harmonisation, in particular to ease meditations, but also to take a step back from the stressful challenges of everyday life. We are surrounded by a unified field of limitless energy. In the urban environment particularly, this field is highly toxic and ultimately lethal. Restoration of balance into this field is paramount in order to allow for all biological life-forms to prosper and replenish.
- f. Improvement of memory, concentration, speed and efficiency of decisions, especially for pilots, surgeons, teachers, and all professionals whose performance depends on absolute mental clarity.
- g. Harmonization and balancing of the harmful effects of volatile organic compounds (VOC) in the indoor air (apartments, houses, enterprises, etc).

SCOPE OF THE FIELD-EFFECT

The field-effect of the **5GBioShield** is **minimum 40m** in diameter in charge whereby all disturbances, both magneto-electric and geo-biological, are converted into balanced fields. Wearing or carrying the **5GBioShield** without activation by an electric charger retains a **minimum 8m** diameter, and allows the creation of a permanent protective '**plasmic shield**'.

DURATION OF LIFE

Current studies demonstrate service life as long as the unit is not damaged or defaced.

OVERDOSE

No overdose or adverse effects are possible even if the **5GBioShield** remains permanently activated. The Key creates an array of balanced life force frequencies ensuring full-spectrum harmonisation of the body, which adjusts according to the resonance effect.

As a result, balanced frequencies created by the Key are only affecting the user as and where required. Thus, the effects of the **5GBioShield** may vary from one user to another, but will inexorably lead to a higher energy and well-being state at all levels.

TIME NEEDED FOR THE EFFECTS TO MANIFEST

This will depend on the sensitivity of the user, as well as the degree of repair each biological organism requires. Tests based on heart rate variability (HVR) have shown noticeable effects after a quarter of an hour once the **5Gbioshield** is activated. Some users immediately feel the effects, in the form of calm, harmony and serenity. Other users, more physically impaired, will have to wait several days or even weeks for the body's revitalisation mechanisms to be fully effective. Therefore, patience and perseverance are recommended to everyone in order to benefit maximally from the multiple effects generated by the **5GBioShield**.

WARRANTY

The **5GBioShield** is guaranteed for 1 (one) year.

DISCLAIMER

- This device is not intended to diagnose, treat, cure, or prevent any specific disease.
